

## DESCRIPTION

Metal grommets with brush that hold cables in place.

Their main characteristics are:

- Allow cable passage on the top of the desc, ensuring an ergonomical working space.
- Equipped with nylon brush that holds cables or wires.
- Available in various colours to match any interior design.
- Seal on the back of the lid to prevent noise.

## AVAILABLE TYPES

The grommets are available in two types:

- **GRM-1** with single brush and lid
- **GRM-2** with dual brush

## AVAILABLE SIZES

The grommets are available in the following widths:

Code	Width (mm)
GRM-1 grommet with single brush and lid	97
GRM-1 grommet with single brush and lid	107
GRM-1 grommet with single brush and lid	117
GRM-2 grommet with dual brush	72
GRM-2 grommet with dual brush	94
GRM-2 grommet with dual brush	112

## NOTES

The grommets are available at any length to meet the project's requirements.

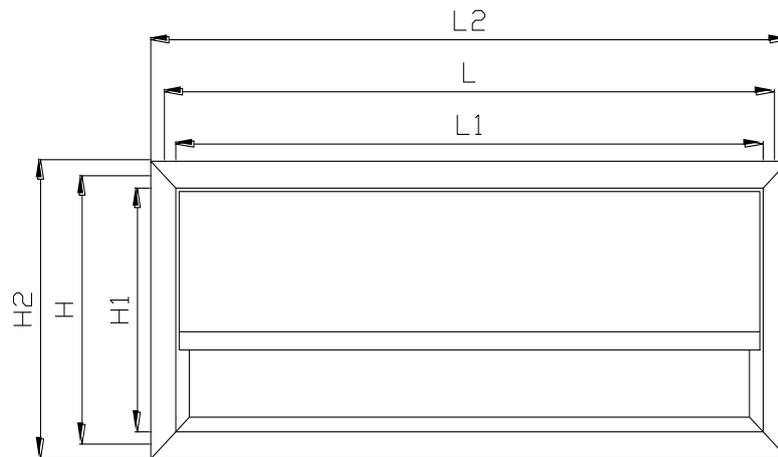

## MATERIALS

Frame and Lid: Anodized aluminium in mat silver colour or powder coated in any RAL colour.

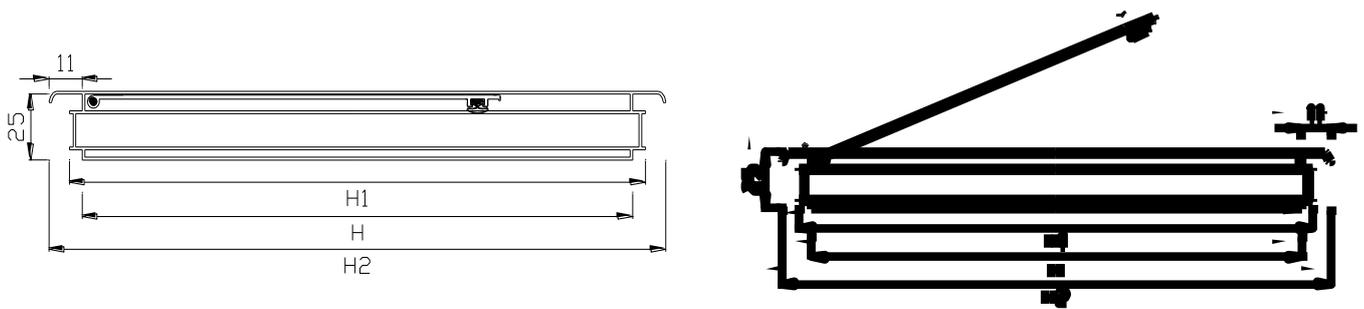

Tongue and Spigot connections: Galvanized steel.

Brush: Nylon 6/6.

Seal: «Ω» type PVC.

GRM – VIEW

GRM – SECTIONS

- L : Nominal length – horizontal dimension
- H : Nominal width – vertical dimension
- L<sub>1</sub> : Length L<sub>1</sub> = L – 3 mm
- H<sub>1</sub> : Width H<sub>1</sub> = H – 3 mm
- L<sub>2</sub> : Overall length L<sub>2</sub> = L<sub>1</sub> + 22 mm
- H<sub>2</sub> : Overall width H<sub>2</sub> = H<sub>1</sub> + 22 mm

## NOTES

1. The grommet has no holes.
